London, July 13.

Yesterday arrived a Mail from Holland.

Moscow, June 16.

SOME Days ago an Express arrived here from Constantinople, dispatched by our Resident there, with News that the Ottoman Port had assured him they would meddle in no Manner with the Differences between his Master and the Persian Rebels, nor would give them any Protection. An Express arrived here on the 14th from Isphahan, giving an Account of the Rebellion in Persia; 'tis said, that the Rebels having seized upon several Places, deposed the Sophy and placed his eldest Son on the Throne; who not answering their Expectation they also deposed him and set his next Brother on the Throne, and him they turned out soon after and put the youngest Brother in his stead; and that the Commotion was not yet over. Advice from the Nisna Novogrod say, that the Czar had left that Place and was continuing his Voyage on the Volga towards Cazan, in order for Astracan. The Anniversary of the Czar's Birth was celebrated here on the 9th Instant, on which Occasion the young Princesses gave a magnificent Entertainment to all the foreign Ministers. Their Royal Highnesses and Prince Menzikoff set out Tomorrow for Petersbourg, whither the Commissioners for Trade will likewise return at the End of next Week. The Turkish Aga is gone from hence on his return to Constantinople.

Malta, June 11. The Grand Master continues dangerously ill, 'tis believed his Intestines are gangreen'd; an able Surgeon, whose Remedies are said to be helpful in that Distemper, is expected from Rome, sent by Cardinal Zondard, the Grand Master's Brother. A Body of 3000 Troops are to be posted in three Detachments, one at Georgio, one at Marfa-Siruvo, and another at Cala; which are the three most exposed Places on this Island where the Turks may attempt a Descent.

Naples, June 23. Cardinal Althan our new Viceroy arrived here Yesterday in the Evening under a general Discharge of the Artillery of our Forts, as did likewise the Count de Almenara, who is going to his Viceroyalty in Sicily: This Morning his Eminency took Possession of his Government with the usual Ceremonies. Prince Borghese is on his Departure for Rome, and Count Almenara waits only for a fair Wind to convey him to Palermo, to relieve the Duke de Monteleone the former Viceroy. Advice is received here that 13 Turkish Ships of War are joined with the five others that lately sailed from the Dardanelles, having Troops on board, and abundance of warlike Stores: Upon which, the Maltese are preparing for a vigorous Defence, and the Commander of the Gallies is expected in Sicily to receive some Imperial Regiments on Board, which the Emperor has granted for that Service, in case of Necessity.

Milan, June 30. All the Knights of Malta in these Parts are hastning thither, and to the Island Goffo, to defend those Places against the Turks; and especially the latter, which lies four Miles West from Malta, is 13 Miles long and seven broad, and 'tis feared may serve for a Place of Retreat to the Infidels: In the Year 1565 they carried off 6000 of the Inhabitants: It contains now about 500 Houses, 3000 People, is subject to Malta, and has only a Fort on the Eastern Shore.

Vienne, July 4. Cardinal Czaki arrived here the 2d Instant from Presbourg with several

Hungarian Noblemen: He was admitted the same Day to a private Audience of the Emperour, and had Yesterday his publick Audience of his Imperial Majesty at the Palace of la Favorita: He went thither attended by a Train of 36 Coaches and six Horses, preceded by an Officer of the Court. This Prelate being introduced to the Hall of Audience, presented to the Emperour the Resolution of the Hungarian People drawn up in Latin, by which they admit a Succession to that Kingdom in the Female Line of his Imperial Majesty in default of Issue Male. The Emperour answered in Latin to the Discourse made him on that Subject by Cardinal Czaki, who at the same time invited his Imperial Majesty on the Part of the States to honour them with his Presence in the Diet at Presbourg; to which the Emperour replied very graciously. The Cardinal had an Audience afterwards of the present reigning Empress, and was admitted to kiss the Hands of the Archduchess Theresa, who is to succeed to the Hungarian Kingdom in case there should be no Heir Male. His Eminency being returned to the Palace of the Palatine of Hungary, gave a noble Entertainment there to the Nobility of that Kingdom who had accompanied him hither, amongst others to the Bishops of Neitra and Agram, the Counts Palfi, Draskowitz, Esterhazy, Nadasdi, Seczeni, Cohari, Zabor, Czicks, Colonitz, Szirmy, Forgacz, Soniock, &c. Count Charles de Martinitz dispatched by Cardinal Althan from Rome arrived here the 1st Instant: The next Day he was admitted to an Audience of the Emperour, and presented to him the Pope's Bull for the Investiture of Naples: He had also an Audience of the Empress.
